Who We Are

RMS Concrete Limited is a wholly owned Ghanaian company established to produce prestressed concrete sleepers and other specialized concrete products.

RMS Concrete Limited was nominated in 2019 by the Ghana Railway Development Authority (GRDA) for the production and supply of prestressed concrete sleepers for the redevelopment of the Western Railway Line.

RMS Concrete Limited is currently the sole producer and supplier of prestressed concrete sleepers for Amandi Holdings Limited for the Five Hundred and Sixty Million United States Dollars (US \$560 million) Railway Project for the construction of sections of the Western Line.

This is a Government of Ghana / Deutsche Bank Funded Project.

RMS Concrete Limited has signed a contract with Amandi Investment Limited for the supply of 130,000 pieces of Prestressed Concrete Sleepers for the redevelopment of the Manso-Huni Valley section of the Western Line.

What We Do

The World Class Railway Sleepers & Concrete Products

Our Pre-Stressed Railway Sleepers

- **RMS Concrete** produces the full range of Prestressed Concrete Sleepers.
- We engineer to meet **clients' requirement** from design to production of every type of concrete sleepers in accordance with **EN13230 - 2:2016 Standards**.
- Using **state-of-the-art technology** and best quality assurance processes, we select high grade inputs for the production of our sleepers.
- Production capacity of Prestressed Concrete Sleepers:
 - 800 Units / Day
 - 200,000 Units / Year
- Our sleepers are certified by:
 - **Technical University of Munich** - *The World's Leading Test Center.*
 - **Ghana Railway Development Authority (GRDA)** - Ghana's Rail Sector Regulator.

Design, Engineer and Manufacture other Specialized/Customized Concrete Products.

- Prestressed Concrete Beams for Bridges

- Precast Box Culverts

- Concrete Kerbs

- Precast U Drains with Covers

- Precast Pipe Culverts

*Sleepers are the
backbone of railway
infrastructure.*

Modern Concrete Testing Lab

Through rigorous testing protocols and meticulous analysis, we provide invaluable insights into the composition, strength, and durability of concrete mixes, empowering engineers, contractors, and developers to make informed decisions at every stage of their projects.

From initial batch assessments to ongoing quality control measures, trust our concrete testing lab to deliver accurate results and uphold the highest standards of safety and excellence in the built environment.

HSEQ Policy

Our business is the production of pre-stressed concrete sleepers and other specialized concrete products.

At RMS Concrete we are committed to Health, Safety, Environmental and Quality Assurance (HSEQ) policy as an important and integral part of our business.

Our HSEQ policy features strongly in our performance management strategy to ensure and maintain improvements in delivery.

We seek to achieve this through implementation of an HSEQ management system aimed at:

1

Implementing a robust system aimed at identifying, evaluating, mitigating, documenting and monitoring HSEQ risks.

2

Demonstrating and promoting leadership commitment in curtailing injury and/or ill health to our staff and community.

3

Ensuring set objectives and targets to promote a proactive HSEQ culture within the organisation to ensure continuous improvement in HSEQ performance.

4

Introduce policies and programmes to maintain alertness and readiness of staff to prevent and /or respond to and manage all HSEQ incidents and emergencies in a timely and effectively manner.

5

Ensure strict compliance to all governing legal and regulatory requirements.

6

Promote inclusive participation of all employees and external stakeholders in key decision making with regards to HSEQ management.

Environmental Sustainability

and Corporate Social Responsibility

We actively explore innovative manufacturing techniques that enhance the eco-friendliness of our products. Recycling and Repurposing are integrated into our practices, ensuring that materials are utilized efficiently, and waste is minimized.

Beyond our operations, we advocate for environmentally friendly and responsible practices across the rail industry. We collaborate with stakeholders to promote sustainability and support the development of eco-friendly railway infrastructure.

At RMS, environmental sustainability is not just a corporate responsibility; it is an integral part of our identity. Choose our railway sleepers not only for their quality and reliability but also for their contribution to a more sustainable and environmentally conscious future."

We are committed to working with communities to improve and promote their cultural and economic lives through social investment programmes.
